

# **Thursday 26 November**

14:30

#### نشست ششم

Session | Location: پژوهشگاه دانشهای بنیادی, سالن همایشها, تهران - فرمانیه - جنب کوه نور (Convener: Prof. Abbas Behjat

14:40-15:00

The design of standing wave 6 MeV electron linear accelerator tube

Speaker

Mrs sara zarei

15:00-15:20

Fabrication and Measurment of an X-Band LINAC Tube

#### **Speakers**

Mr Hossein Farhang, Mr Mohammad Farahmandzad

## 15:20-15:40

effect of diffusion bonding along with brazing process on vacuum sealing strength of copper cavities in X-band linear accelerator and compare with diffusion bonding and brazing process

## Speaker

Mr majid yousefzade

## 15:40-16:00

Design of neutron bubble dosimeter for monitoring neutron dose in accelerator, radiotherapy and reactor sites

# Speaker

Mr isaac shiri

16:20
